Lyon → Lisbon, Portugal
EU Citizen · NIF registration on arrival

Python Full-Stack developer with a production track record across Europe, France, Nigeria, and South Africa, now targeting the Lisbon tech ecosystem. **Founder of TechAndStream**: built and shipped SaaS platforms end-to-end using FastAPI, React, PostgreSQL, Docker and Cloudflare. Eight years of operational leadership in the French Army developed the adaptability and rigour now applied to lean, client-facing software delivery. Open to relocation to Lisbon | EU free movement, ready to register for NIF and IEF upon arrival.

Why Lisbon ? Market Fit 🇵🇹

Lisbon's tech hub concentrates major employers in my stack: Capgemini, Accenture, Farfetch, Revolut, Unbabel, Critical Software. Strong demand for Python/FastAPI backend engineers, React frontend, and DevOps profiles. English is the working language in most tech companies | no Portuguese required to start.

CORE TECHNICAL SKILLS

Languages	Python (Expert) · JavaScript/TypeScript · SQL · Bash · Dart
Frameworks	FastAPI · React.js · Vue.js · Node.js · Flask · Flutter
Databases	PostgreSQL · Azure SQL Server · MySQL · Redis · Supabase
DevOps	Docker · GitHub Actions · Cloudflare · Vercel · Linux/Nginx
Security	OWASP · Penetration Testing · GDPR/RGPD compliance
SaaS/Payments	Stripe API · PDF generation · Admin dashboards · REST API design

PROFESSIONAL EXPERIENCE

Full-Stack Developer & Founder · TechAndStream (Sole trader | SIRET 993761030)

Nov. 2025 - Present · Lyon, France · Remote-first · International clients

- ▶ Built and shipped 3+ production Full-Stack applications (FastAPI + React + PostgreSQL) for clients and cloud specificities EU/US
- ▶ Architected Cloudflare + Docker infrastructure enabling zero-downtime deployments, cutting production incidents by ~60%
- ▶ Integrated Stripe payments, automated PDF invoicing, and multi-tenant admin dashboards | DRY/SOLID principles throughout
- ▶ SQL optimisation on Azure SQL Server and PostgreSQL: reporting latency reduced by ~40%
- ▶ GDPR/RGPD compliance audits: data pseudonymisation, retention policies, privacy architecture for EU + African regulatory contexts
- ▶ Google Developers Program member | open-source contributions via github.com/kvnbbg

Non-Commissioned Officer - Technical Specialist · French Army

Jul. 2016 - Dec. 2024 · France

- ▶ Led teams of up to 15 in high-pressure environments | directly transferable to Agile tech team leadership
- ▶ Managed complex technical equipment 24/7 | deep troubleshooting and incident-response skills
- ▶ Delivered structured training programmes | applied today in documentation, onboarding, and knowledge transfer

KEY PROJECTS

- ▶ **SaaS Client Platform** | Multi-tenant subscription + Stripe + PDF invoicing (FastAPI · React · Supabase · Docker)
- ▶ **Cross-border ERP integration** | Custom connectors and SQL optimisation for international clients
- ▶ **techandstream.com** | Personal portfolio · Cloudflare Pages · Live demos
- ▶ **Mobile App** | Cross-platform Flutter/Dart with REST API Backend

EDUCATION & CERTIFICATIONS

- ▶ **RNCP Level 5 | Web & Mobile Developer** · STUDI Digital School (2023-2025)
- ▶ **Python Advanced Certification (Expert level)** · 2024
- ▶ **Google UX Design Professional Certificate** · Google / Coursera, 2024
- ▶ **Penetration Tester | CEH-ready** · Vulnerability identification and reporting, 2024

LANGUAGES

French | Native
English | Professional C1 (tech environment daily)
Portuguese | Basic / A1 (learning actively)

RELOCATION & STATUS

Target city: Lisbon, Portugal
Status: EU free movement | no work permit needed
NIF: To register upon arrival (AT or online)
Available: Immediately · Remote possible initially
EURES file: Active | Europass CV registered
