KEVIN JOSUE MARVILLE

Lead Full-Stack Engineer & Technical Consultant | Python & TypeScript Specialist

Email: contact@techandstream.com | Portfolio: techandstream.com | LinkedIn: linkedin.com/in/kevinmarville | GitHub: github.com/kvnbbg
| Location: Remote Worldwide / Hybrid (Relocation Ready)

PROFESSIONAL SUMMARY

Senior Full-Stack Software Engineer, Solutions Architect, and Founder with confirmed expertise in architecting, developing, and deploying mission-critical web applications. Proficient in Python, FastAPI, TypeScript, React, and PostgreSQL, backed by modern DevOps pipelines (Docker, Cloudflare, CI/CD). Forged through 8 years of operational excellence in the French Land Forces, applying fault-tolerant execution, autonomous decision-making, and high-stakes problem resolution to software architecture, performance tuning, and technical consulting.

CORE TECHNICAL & ENGINEERING SKILLS

Backend & API Development: Python, FastAPI, Flask, Node.js, RESTful APIs, GraphQL, WebSockets, Microservices Architecture, DRY, SOLID.

Frontend & Mobile Engineering: TypeScript, JavaScript, React.js, Vue.js, Flutter, Tailwind CSS, Responsive Web Design, State Management.

Databases & Data Infrastructure: PostgreSQL, Azure SQL Server, MySQL, Redis, Supabase, Query Optimization, Database Migration.

DevOps, Cloud & Systems: Docker, Git, CI/CD Pipelines, Cloudflare Infrastructure, Linux Administration (Debian/Ubuntu), Nginx, Vercel.

Security & Compliance: OWASP Top 10, Penetration Testing, Threat Modeling, GDPR / RGPD Compliance, Identity & Access Management (IAM).

Telecommunications & Hardware: Fiber Optics Deployment, Electrical Safety Certification (Auxo Formation / France Travail).

LIVE PORTALS & ENGINEERING PROJECTS

Tech & Enterprise Services (techandstream.com): Production portal for client services, microservices architecture, and technical consulting.

Real-Time Gaming & Systems (kvnbbg.fr): Real-time interactive applications, community platforms, and low-latency streaming infrastructure.

Audio Engineering & Creative Systems (kvnbbg-creations.io): Digital audio processing, algorithmic generation, and creative web technology.

PROFESSIONAL EXPERIENCE

Founder & Lead Full-Stack Architect — TechAndStream — **Nov. 2025 – Present**
Remote — Global & European Clients (SIRET: 993 761 030)

- Architected, developed, and deployed 3+ production-grade web applications utilizing Python (FastAPI), React, and PostgreSQL from specification to zero-downtime release.
- Engineered automated CI/CD and Docker pipelines on Cloudflare edge networks, decreasing build times and reducing production incident rates by 60%.
- Integrated secure billing and payment workflows via Stripe API, dynamic automated PDF invoicing engines, and real-time administrative telemetry dashboards.
- Executed end-to-end GDPR/RGPD compliance audits: implemented data pseudonymization pipelines, cryptographic hashing, and automated retention policies.
- Provided Tier-2 technical support and consulting, resolving critical issues in under 48 hours and authoring technical documentation for enterprise stakeholders.

Operational Specialist & Technical Logistics Lead — French Land Forces (Armée de Terre) — **Jul. 2016 – Dec. 2024**
France & Operational Theaters (8 Years of Service)

- Maintained 24/7 technical incident readiness in high-stakes environments, executing mission-critical directives with zero margin for error under severe operational stress.
- Supervised regular maintenance, diagnostic inspections, and operational readiness for mission-critical hardware, ensuring 100% equipment availability.
- Trained, mentored, and supervised technical squads, instilling strict execution standards directly applicable to Agile code reviews and engineering mentorship.
- Led autonomous problem-solving initiatives involving rapid root-cause isolation, cross-functional logistics, and strict deadline adherence.

Operations & Supply Chain Associate — Vanheck Logistics (via Alliance) — **2025 (4 Months)**
France

- Streamlined order dispatching, physical routing, and warehouse inventory workflows under strict delivery SLAs, applying lean optimization to fulfillment processes.

Client Relations & Human Services Specialist — Vitalliance — **2025 (4 Months)**
France

- Delivered personalized assistance, developing active listening, crisis escalation management, and adaptability across diverse client and medical stakeholders.
