KEVIN JOSUÉ MARVILLE

Lead Full-Stack Engineer & Technical Consultant | Python & TypeScript Specialist

📧 contact@techandstream.com 🌐 techandstream.com 💼 linkedin.com/in/kevinmarville 💻 github.com/kvnbbg
🌍 Remote Worldwide / Hybrid (Relocation Open)

Executive Profile: Autonomous Full-Stack Software Engineer & Founder with confirmed technical mastery in building mission-critical architectures (Python/FastAPI, TypeScript/React, PostgreSQL, Docker/Cloudflare). Proven operational excellence forged across **8 years in the French Army (High-Reliability Operations)**, transitioning into technical leadership, system architecture, and consulting. Experienced delivering robust, production-ready platforms for global scale, international clients, and multi-media ecosystems.

PROFESSIONAL EXPERIENCE & LEADERSHIP

Founder & Lead Full-Stack Architect
2025 – Present

TechAndStream (SIRET 993 761 030) | Remote (Global Clients)

- Architected, built, and shipped 3+ enterprise-grade Full-Stack applications (Python/FastAPI, React, PostgreSQL) from technical specification to zero-downtime production.
- Designed an automated Cloudflare & Docker infrastructure pipeline, cutting deployment overhead and decreasing production incident rates by **~60%**.
- Engineered secure fintech modules (Stripe API, PDF invoice generation, admin telemetry dashboards) adhering to strict DRY, SOLID, and OWASP security standards.
- Executed comprehensive GDPR compliance audits: data pseudonymization, retention protocols, and cross-border data handling for EU/US clients.
- Delivered high-tier technical support and consulting, managing N2 resolution cycles under 48h and leading stakeholder training.

Operational Specialist & Technical Logistics Lead
Jul. 2016 – Dec. 2024

French Land Forces (Armée de Terre) | France & Operations

- **8 Years of High-Stakes Operations:** Developed extreme discipline, 24/7 incident readiness, and crisis management under high-pressure, austere conditions.
- **Complex Systems Maintenance:** Managed operational readiness and diagnostic maintenance for sophisticated field assets with zero margin for error.
- **Team Leadership & Mentorship:** Trained, mentored, and supervised technical squads, instilling high execution standards now applied to Agile code reviews and junior developer mentoring.
- **Autonomous Execution:** Led complex field directives requiring rapid root-cause analysis, cross-functional coordination, and precise deadline adherence.

Operations & Supply Chain Associate
2025 (4 mos)

Vanheck Logistics (via Alliance Interim)

- Streamlined order dispatching and inventory workflows under strict delivery SLAs, applying lean optimization to physical supply chain processes.

Client Relations & Human Services Specialist
2025 (4 mos)

Vitalliance

- Delivered high-adaptability personalized coordination, practicing active listening, multi-stakeholder management, and emergency response handling.

SELECTED LIVE ECOSYSTEMS & PORTALS

Tech & Software Engineering:
techandstream.com
Production hub for client services, enterprise microservices, and technical consulting.

Interactive Gaming & Engine Projects:
kvnbbg.fr
Interactive experiences, community platforms, and real-time streaming architectures.

Audio Engineering & Creative Systems:
kvnbbg-creations.io
Digital audio workstation integration, algorithmic generation, and creative technology.

CORE TECH STACK

Back-End & APIs
Python, FastAPI, Flask, Node.js, REST/ GraphQL, WebSockets

Front-End & Mobile
React.js, TypeScript, JavaScript, Vue.js, Flutter, TailwindCSS

Data & Databases
PostgreSQL, Azure SQL, Redis, MySQL, Supabase, Query Optimization

DevOps, Cloud & Infra
Docker, Git / CI-CD, Cloudflare, Linux, Nginx, Vercel

Security & Architecture
OWASP, Pentesting, GDPR/RGPD, Microservices, DRY/SOLID

CREDENTIALS & DIPLOMAS

RNCP Level 5 (Eq. Associate Degree)
Web & Mobile Application Development – STUDI (2023–2025)

Fiber Optics & Electrical Certification
Auxo Formation / France Travail (2025)

Advanced Python Certification
State-Certified Professional Engineering (2024)

Penetration Testing & Security
Vulnerability Assessment & Threat Modeling (2024)

Google UX Design Certificate
Coursera / Google (2024)

SOFT SKILLS & CONSULTING

- Mission-Critical Mindset
- Stakeholder & Client Discovery
- Root-Cause Troubleshooting
- Cross-Functional Leadership

LANGUAGES & MOBILITY

- **English:** Professional Working (B2/C1)
- **French:** Native
- **Creole:** Conversational
- **Mobility:** 100% Remote Global / Open to International Relocation
